

Consistent delivery

Philips Respironics InnoSpire Elegance nebulizer compressor system

Robust design

Power and style are all wrapped into one in our InnoSpire Elegance, which is designed to cope with frequent use. Elegance, part of our InnoSpire family of compressor nebulizer systems, provides fast, efficient and reliable drug delivery to patients at hospital and at home.

Proven nebulizer technology

Elegance is matched with our SideStream reusable nebulizer which is proven to consistently deliver a high quality aerosol. You can be confident that patients will keep receiving a high quality aerosol for the full twelve months life of the nebulizer.

Key features

- Partnered with proven SideStream technology
- Short treatment times in 6 – 8 minutes*
- Rated for continuous use and suitable for hospital and home

Reliable aerosol delivery you can trust

Elegance is combined with our highly efficient SideStream nebulizer. SideStream has been designed to draw more air in, via an active venturi system, resulting in faster drug delivery and shorter treatment times. It also has a unique diamond jet design which helps to minimise wear from frequent use and aids consistent delivery of a high quality aerosol.

By utilizing a venturi, SideStream produces a flow rate of 16 l/min

Innovative jet design producing consistently high quality aerosol
