Swivel Port - Mask Adapter, Elbow, 22mm Port	Polycarbonate Thermoplastic, Translucent Yellow
Swivel Port - AAV Port	Polycarbonate Thermoplastic Translucent
Diaphragm	Silicone Rubber
Headgear	Polyurethane Foam, Nylon UBL and Elastane Fabric, Black
Headgear Hook	Nylon, Black
Headgear Strap Clips (4)	Polypropylene, Black

Oro-Nasal BiLevel V2 Mask™
with Headgear

GENERAL

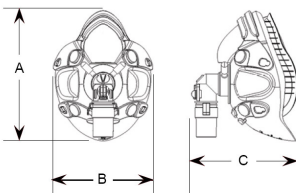

INFORMATION

- **Intended Use:** The Hans Rudolph 7700 V2 Mask™ series are reusable, multi-patient use, adult Oro-Nasal BiLevel mask without any passive, continuous flow exhaust port built into the mask. It is intended for use with certain BiLevel machines for treatment of obstructive sleep apnea, and for use with other similar ventilators that incorporate the patient vent into the patient circuit instead of the mask and provide a minimum of 3 cmH₂O pressure measured at the mask.
- **Indications for Use:** The V2 Mask™ are for use on adult patients (greater than 30 kilograms weight) for treatment of Obstructive Sleep Apnea or any other conditions requiring BiLevel or non-invasive ventilatory support at pressures greater than or equal to 3.0 cmH₂O at the mask in homes, hospitals and other clinical settings.
- **Environment of Use:** The V2 Masks™ are for use in homes, hospitals and other clinical settings by individuals that have at least minimal instructions or training on the use of the mask as well as the device to which the mask are intended to connect.
- **Cautions:**
 - a.) Federal law restricts this device to sale by or on the order of a physician.
 - b.) At low BiLevel pressures the flow through the patient circuit vent holes may be inadequate to clear all exhaled gas from the tubing. Some rebreathing may occur.
 - c.) Patients with facial hair, especially beards, may experience mask leakage which may require
